EXAMINER'S AMENDMENT

1. The numbering of claims is not accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). In the instant case, Claims 12-16 are misnumbered, there is no claim 11 presented.

Therefore, misnumbered claims 12-16 been renumbered 11-15.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: cavity 46 referenced on page 9 line 12 of the specification is now shown in Figure 2. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

4. The following is an examiner's statement of reasons for allowance:

While Chang discloses a brake pad holder having a brake pad mount for receiving a brake pad, a mounting arm having a head and threaded post and a bearing washer and U.S. Patent No.

Art Unit: 3613

4,051,924 to Yoshigai discloses a brake pad holder having a brake pad mount for receiving a brake pad, a mounting arm receptor, a bearing washer, and mounting arm, neither of these references taken either alone or in combination disclose a brake pad holder wherein the head of the mounting arm has a lower surface defining a convex configuration to cooperate with the concave interior of the mounting arm receptor nor a bearing washer defining a concave receptor for receiving the convex exterior of the mounting arm receptor, wherein cooperation of the concave receptor and mounting arm receptor convex exterior allow movement of the brake pad mount along an x-axis, a y-axis, and a z-axis, independent of the mounting arm. It is for these reasons that applicant's invention defines over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pam Lipka whose telephone number is (703) 308-1113.
